Chess Computers - choosing the right model

There's something for everyone in our exciting 1998 range, whether you're a relative newcomer to the great game, a keen enthusiast, or even one of the country's leading Grandmasters!

If you've previously bought from us during the last 17 or 18 years, you could already be familiar with the different types of chess computer and their capabilities - in which case you may prefer to jump to page 3! If not, we hope the following explanations will help you make the right choice.

What is meant by "Levels of Difficulty"? "Level" essentially means "Time-setting", so the number of levels a computer has is no guide to its ability. Putting a computer on a "high level" simply means giving it longer to calculate than if on a "low level", but if a computer's PROGRAM is weak, it can't ever play good quality chess! However, a computer with a strong program can play well at only a few seconds a move.

So how can a Computer's true strength be measured? In Britain, human players can be given a BCF (British Chess Federation) rating - and a similar calculation can also be made for chess computers. A rating is akin to a golfer's "handicap" - it tells you the person's INHERENT ability. To give you an idea as to what the different figures signify, a novice might be rated at 20 or 30 BCF (maybe even lower), a hobby player possibly 80-100, a good club player 160, International Master 220-240. World Champion Garry Kasparov is 275 BCF!!

For the COMPUTERS' approximate ability, varying to some extent upon "level" setting, we have given each a STAR RATING on a 1-10 basis, as follows:

BCF	
*	41 - 65
**	66 - 90
***	91 - 115
****	116 - 140
*****	141 - 165
*****	166 - 180
*****	181 - 195
*****	196 - 205
*****	206 - 215
*****	216 - 225

Other Rating Systems

Elo (named after its inventor, Professor Arpad Elo) - this was adopted in 1970 by FIDE, the governing body of World Chess, and is the most widely used throughout the world. To convert BCF to Elo, multiply by 8, then add 600. Example: 150 BCF = 1800 Elo.

USCF (United States Chess Federation) - add approx 120 to the Elo rating. Example: 1800 Elo = 1920 USCF.

Another important factor to take into account is that although chess computers cannot play ABOVE the grades attributed to them, all the ones we recommend have special WEAK SETTINGS. So, whereas a strong player should not purchase a 1, 2 or 3 star computer, a hobby player could consider a model in a higher strength bracket to allow for future improvement. It also means that a 6-10 star computer, which can be set to play at a 1 or 2 star level, would be suitable for different members of a family with widely varying abilities.

What are the different types of Chess Computer? There are three types: **PORTABLES**, which can be hand-held, and powered by batteries (some work on mains as well), either **PLUG-IN PRESS SENSORY** with pieces which slot into holes in the board, or **CALCULATOR KEY-IN**, whereby you make your moves by pressing the keys - e.g. D, 2, D, 4.

Then there are the **PRESS SENSORY TABLE TOP** models, which have a typical playing area of 8" x 8" and king height of 2". These are the ideal size for many of our customers.

For ultimate luxury there are **AUTO SENSORY TABLE TOP** computers - with beautiful hand-crafted wooden boards and matching wood felted pieces, playing area usually 12" x 12" and typical king height 3". With an auto sensory, you just pick up the piece and move it - no pressing down required!

Anything else you need to know? Don't hesitate to call Mike or Eric on 01353 740323.

1 ELECTRONIC CHESSMAN £29.95 - our price

includes B. H. Wood's brilliant 150 page book "Easy Guide to Chess".

- ★ Your personal, portable chess tutor and opponent, with plug-in press sensory board.
- ★ 64 level settings, becoming progressively more difficult.
- ★ Special teaching modes with games for individual pieces - self-rating instruction card included.
- ★ Dimensions: 6½" x 4" x 1". Requires 2 x AAA batteries.
- ★ 2 year memory retention.
- ★ Strength *

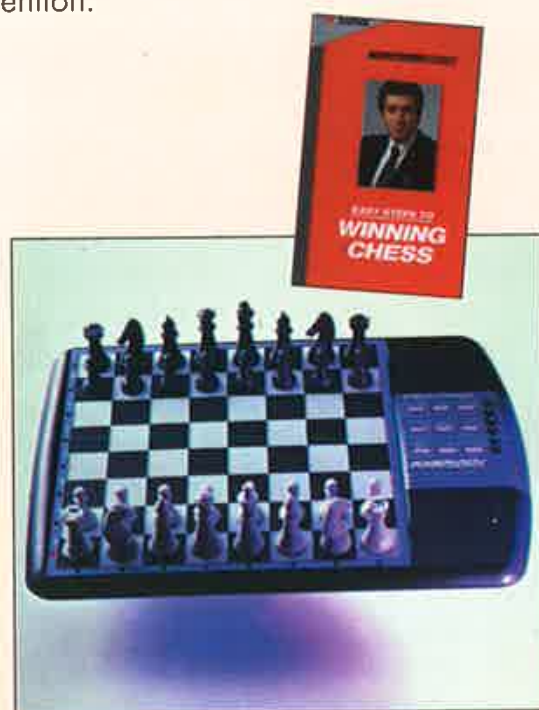

2 PORTABLE TALKING COACH £49.95

- ★ Wow! It Talks, Teaches and Travels! Makes chess easy to learn and a real pleasure to play.
- ★ Plug-in press sensory board, similar styling to the highly successful Travel Champion 2100 (item 6).
- ★ Chess guidance using Voice Coach, including "piece in danger" warning and good move appreciation to encourage you when appropriate!
- ★ 64 standard levels plus many other settings for absolute beginners and for specific practice and coaching. Can give hints - advise who's winning, and allow take backs if you blunder or want to know "what if?"
- ★ Dimensions: 9" x 7" x 1¼". Requires 4 x AA batteries.
- ★ 2 year memory retention.
- ★ Strength **

3 KASPAROV SYSTEM TRAINER £69.95

- ★ Comprehensive training to help you learn the basics and rapidly improve your game - it gives you hints, advice and warnings!
- ★ Multi-level settings keep pace with your increasing ability, and there is an 88 page coaching book "Easy Steps to Winning Chess" endorsed by none other than World Chess Champion Garry Kasparov.
- ★ Built in openings library of 134 moves.
- ★ Attractive press sensory board, with matching chess pieces.
- ★ Dimensions: 12" x 9". Requires 4 x AA batteries.
- ★ 18 month memory retention.
- ★ Strength ***

4 THE TIGER Mk 2, complete with ALL-WOOD CHESS SET £89.95

(optional adaptor £9)

- ★ A powerful Franz Morsch program, close in strength to the Travel Champion 2100 (item 6), but key-pad operated with user-friendly display for clocks, hints, analysis and evaluations.
- ★ So... the TC2100 is a plug-in, the Tiger is a calculator type portable with full display, also incorporating its own magnetic board with both disc and stand-up pieces.
- ★ The Tiger is packed with excellent features, including user-selectable playing styles and opening books (active or passive), count-down chess clocks, 34 move take back, and programmable rotating display.
- ★ Also has facility for showing search depth, principal variations up to 4 moves ahead, nodes per second. "Easy" mode for hobby players, choice of random or best, and much much more.
- ★ Dimensions (excluding key-pad module): $6\frac{3}{4}" \times 3\frac{1}{4}" \times 1"$ (closed), $6\frac{3}{4}" \times 5\frac{3}{4}"$ (open). Mains or 4 x AAA batteries. Memory retention.
- ★ The all wood CHESSBOARD includes a purpose built drawer with compartments for the matching wood, felted pieces and Tiger computer! Use on its own to play against a friend, or with the Tiger when you want a fearsome challenge!
- ★ Dimensions (drawer closed): $16\frac{1}{2}" \times 16\frac{1}{2}" \times 2\frac{3}{4}"$, King height $2\frac{3}{4}"$.
- ★ Strength *****

5 KASPAROV EXECUTIVE £99.95

(optional adaptor £9)

- ★ A member of the highly acclaimed Franz Morsch Tiger and '2100' family.
- ★ Excellent coaching and instructional features, together with a strong 170 BCF program.
- ★ The EXECUTIVE has an 8" x 8" playing area, memory retention facility and large clear display for clocks, analysis and position evaluation. PLUS piece-storage compartment and hard-top clip-on lid for added protection when "on the move".
- ★ Dimensions: 12" x 9". Mains or 4 x AA batteries.
- ★ Strength *****

6 TRAVEL CHAMPION 2100 £99.95

- ★ Franz Morsch's marvellous '2100' program, housed in this stylish, plug-in portable board! High quality and easy-to-see $4\frac{1}{2}" \times 4\frac{1}{2}"$ playing area, with well-defined pieces.
- ★ The best designed portable we've ever seen!
- ★ Display for clocks, hints, analysis, evaluations etc.
- ★ 35,000 position opening book
- ★ Multiple levels, plus easy settings for novices.
- ★ Dimensions: 9" x 7" x $1\frac{1}{4}"$. Requires 4 x AA batteries.
- ★ Game memory retention. ★ Strength *****

7 NOVAG AMBER £129.95 (optional adaptor £9)

- ★ A new and stylish plug-in portable on an H8 processor running at 26MHz.
- ★ 9,000 position opening book. 128 time control settings.
- ★ Information rich display with evaluations, clocks, analysis and coaching features.
- ★ Dimensions 7½" x 4" x 1". Mains or 4 x AAA batteries.
- ★ Memory retention. ★ Strength *****

8 KASPAROV GK2100 £129.95 (optional adaptor £9)

- ★ A fine club/county program by World Champion programmer Franz Morsch.
- ★ This predecessor to the Milano Pro (see item 12) achieved a mighty 2330 USCF in its official Grading Test over 48 games in the U.S.A.
- ★ In addition, there are all the superb features we've come to expect from Franz's programs, including display for clocks, hints, analysis and evaluations.
- ★ Special training and coaching facilities make the computer suitable also for hobby players anxious to progress quickly.
- ★ Dimensions: 16" x 11". Mains or 6 x C type batteries. Memory retention.
- ★ Strength *****

9 MEPHISTO XL-68000 £189.95 (including adaptor)

- ★ A very powerful press sensory chess computer in a compact and attractively designed board with Staunton style pieces.
- ★ Contains a knowledge-packed Richard Lang World Championship winning program running on a 68000 processor at 12MHz.

- ★ Multi-info display includes hints, evaluations, clocks and analysis. Take back/replay of all moves. Full autoplay facility.
- ★ Weak/bad move chess instructor feature with recommended alternative.
- ★ Achieved a 203 BCF grading over 21 games against strong human opposition at a speed tournament during the British Open at Dundee.
- ★ Dimensions 10" x 12½". Mains powered.
- ★ Strength *****

10 NOVAG SAPPHIRE 2 £224 (optional adaptor £9)

11 NOVAG DIAMOND 2 £249 (optional adaptor £9)

★ **SAPPHIRE 2:** The newest and strongest calculator-type portable, playing to good club/county standard. Key-in your moves and play on the separate magnetic board with disc set chessmen provided, or on a favourite board of your own when you're at home.

★ Dimensions: Computer 6" x 3³/₄" x 3³/₄", Board (open) 6¹/₂" x 6". Mains or 4 x AAA batteries.

★ **DIAMOND 2:** A smart-looking press sensory, with the same competitive Sapphire 2 program.

★ Dimensions 14" x 11¹/₂". Mains or 4 x AA batteries.

★ BOTH use a standard H8 processor running at a fast 32MHz.

★ Extensive opening book. 64 preset playing time controls plus unlimited user time settings.

★ Numerous features for novices as well as top-end users, including display for hints, evaluations etc.

★ Memory retention.

★ Strength * * * * * * * *

12 MEPHISTO MILANO PRO £249.95 (optional adaptor £9)

★ A sure-fire best-seller, ideal for the advanced player.

★ The Milano Pro uses a true 32 bit processor giving a high 200 BCF/2200 Elo rating.

★ Classic press sensory black and grey board, with Staunton pieces. Clip-on lid for protection and portability.

★ 64 levels of play. 50,000 position opening book. 200 ply take-back.

★ Display for clocks, hints, analysis and evaluations.

★ As well as the exceptionally strong tournament settings, there are valuable coaching functions for the hobbyist, and even fun levels for beginners.

★ Dimensions: 13¹/₂" x 10". Mains or 6 x AA batteries. Memory retention.

★ Strength * * * * * * * *

13 KASPAROV PRESIDENT £299

(optional adaptor £9)

- ★ The third, and most prestigious of the TC-2100/GK-2100/PRESIDENT group, all carrying the same '2100' program which graded at 2330 USCF in its extended rating test in the States. The President plays a strong and exciting game, posing a formidable challenge to even County players.
- ★ A truly beautiful board to play on, with large information-rich display for clocks, hints, analysis and evaluations.
- ★ Multiple time settings, plus fun and coaching levels for hobby players.
- ★ Dimensions: 14½" x 14½". Mains or 6 x C type batteries. Game memory retention.
- ★ Strength *****

14 MEPHISTO ATLANTA £379 (optional adaptor £9)

★ This newest and very latest dedicated computer from the Mephisto stable is the strongest press sensory available - it's the program which won the World Computer Chess Championship, beating Deep Blue along the way!

- ★ Perfect for the advanced player, the Atlanta uses a 32 bit RISC processor with 512K hash tables and an endgame database! Graded 2288 Elo/211 BCF amongst the IMs and GMs at Aegon 1997!
- ★ Classic press sensory black and grey board, with Staunton pieces. LEDs on every square add to ease of use. Clip-on lid for portability and protection... this is real quality in every sense!
- ★ 64 levels of play. 50,000 position opening book. 200 ply take-back.
- ★ Display for clocks, hints, analysis and evaluations. As well as the exceptionally strong tournament settings, there are valuable coaching functions, and even fun levels for novices.
- ★ Dimensions: 13½" x 10". Mains or 6 x AA batteries. Game memory retention.
- ★ Strength *****

At time of going to press, we've played over 100 ATLANTA games against very tough human and other computer opposition. We would say only this: if you like your chess of a high standard, as well as being sharp, exhilarating and bloodthirsty, then the ATLANTA is the computer for you!

15 MEPHISTO EXCLUSIVE MM6 £449 (including adaptor)

- ★ The timeless luxury of the upgradeable Mephisto Exclusive wood boards has been well known to the "cognoscenti" for over 15 years.
- ★ The EXCLUSIVE board is of Tournament quality and size (dimensions 16" x 16"), fully auto sensory, with 64 LEDs, and comes with finely carved matching, felted pieces.

- ★ The MM6 module set is a special new version of Franz Morsch's '2100' program, and offers exceptional performance at an unbeatable price.
- ★ The display has a large LCD screen, making the MM6 both user-friendly and easy for gathering game information such as clock times, hints, analysis and evaluations.
- ★ Mains powered. Memory retention.
- ★ Strength * * * * *

In the board position shown, Bobby Fischer (playing black against Spassky) came up with a crushing move. Can you spot it? The Exclusive MM6 finds it in one second!!

16 MEPHISTO EXCLUSIVE MMS £399 (including adaptor)

- ★ This is the same luxurious EXCLUSIVE board (see above) coupled with the powerful 180 BCF MM5 module set. Dynamic, interesting chess - and a worthwhile saving of £50!
- ★ All the features you'd expect from a top-range Mephisto. Mains powered. ★ Strength * * * * *

17 MEPHISTO EXCLUSIVE REBELL £349 (including adaptor)

- ★ This is again the same superb EXCLUSIVE board (see above) containing Ed Schroder's famous program playing to genuine Club standard.
- ★ Terrific features, including full auto-play facility. Mains powered. ★ Strength * * * * *

18 LONDON upgrade £159 (for EXISTING owners)

- ★ Richard Lang's LONDON upgrade is for Exclusive, Munchen or Modular board owners with Almeria, Portorose, Lyon, Vancouver or Genius modules, in 68000, 68020 or 68030 versions, or for Berlin and Berlin Pro press sensory owners.
- ★ The LONDON is aptly named - it's the very same Genius 3 program which beat Kasparov himself in London in the Intel Grand Prix - and, as an extra, now includes an updated opening book.
- ★ The LONDON adds a minimum of 60 Elo... up to 200 Elo to the early versions!
- ★ Send in your "buttons" module (or Berlin/Berlin Pro board) with payment - we will make the necessary changes, install the upgrade chips, and return everything within 48 hours, all ready to go!

If you're looking for a bargain, why not have an Exclusive board with one of Mephisto's earlier Club or County standard program modules. In the future, if your game has improved (or even if not!), you can UPGRADE - i.e part exchange the module - just by paying the difference in price.

Call us on 01353 740323 for availability details.

19 TASC R30 £1245 (including adaptor)

- ★ Incorporates the unique piece-recognition SmartBoard and separate Display unit with the powerful Johan de Koning R30 program on a 30MHz RISC processor, all as illustrated.
- ★ Ideal for speedy setting-up of positions for study or problem solving. The display unit links to the board, giving a wealth of information, adjustable to suit your own preferences.
- ★ Full range of time control and playing strength settings, plus five different styles from defensive to aggressive.
- ★ Board dimensions: 16³/₄" x 16³/₄". Mains powered. Game memory retention.
- ★ Please note: connection cable and software disk for SmartBoard connection to PC: £69 extra (if required).
- ★ Strength *****

20 TASC "SMART BOARD" £399 (including adaptor)

- ★ The piece-recognition wood board (illustrated above) to plug into your PC.
- ★ Includes connection cable and software enabling many popular chess programs to run.
- ★ Dimensions: 16³/₄" x 16³/₄". Mains powered.

21 DIGITAL CHESS CLOCK £49.95

- ★ It's been worth waiting for! - Saitek's "Game Clock", a superb product at an affordable price!
- ★ A digital clock is clearly the most accurate way to time your games. Provides the easiest view of the exact time you have left, particularly when you're down to the last 5 minutes.
- ★ Has ALL the features you could require, plus Tournament, Blitz, Fischer, Bronstein and other time control systems and combinations, or create your own!
- ★ Large 17mm tall twin digital clocks. Built-in name plate for user or Club personalisation. Memory retention - all settings saved at switch off. Optional sound effects. Easy to use, with well laid-out buttons. Excellent value.
- ★ Requires 2 x C type batteries - approx. 600 hours life!

22 Optional MAINS ADAPTOR (not illustrated) £9.00

- ★ Suitable for all computers marked with asterisk on Order Form.

23 CHESS COMPUTER MAGAZINE - "SELECTIVE SEARCH" (now in its 13th year) Annual sub - 6 issues £18.00 (Overseas £24.00)

- ★ Edited by national computer chess expert Eric Hallsworth, the magazine keeps you in touch with the chess computer and chess software scene. Regular topics include: Reviews of new models and programs with 'Best buy' guides; news, results, games and analysis from computer-computer and human-computer tournaments. Contributions by programmers and leading players; discussions of playing styles - their strengths and their weaknesses!
- ★ Plus special sets of positions for testing and comparing both computers and programs. Readers' games and opinions! Regularly updated and reliable Rating Lists.

Gradings: The BCF gradings we show are for the programs running on a Pentium PC at 133MHz. Deduct 15 BCF for a 486 PC; Add 10 BCF for a Pentium Pro or MMX PC.

24 HIARCS 6.0 on CD-ROM for MS-DOS, Windows & Apple MAC £89.95 241 BCF

- ★ Mark Uniacke's HIARCS has raced up the rating lists with each successive version, and is now right at the top with the new, faster-than-ever, Master 6.0.
- ★ Renowned for its human-like style of play, packed with massive chess knowledge and tactical wizardry, complemented by superb endgame technique.

- ★ New 143,000 tournament opening book, plus additional 300,000 practice book. Big games database. ChessBase, PGN and EPD files import/export. Multiple analytical features. Special "strength reduction" features for beginner and hobby players. Even plays 'Shuffle' chess! Apple Mac and PC versions contained together on one CD! The strongest Mac program by far. A PC version is also available on disk.

As a BONUS a special PGN disk of games, gathered by the Countrywide team from many Computer-Computer and Computer-Human tournaments over recent years, is included with all HIARCS and GENIUS orders. The files can easily be used from within either program, and the games played out on the screen, with Hiarcs or Genius analysing if required.

25 GENIUS 5 on CD-ROM for Windows £89.95 234 BCF

- ★ Richard Lang's programs have always been true market leaders for graphics, features and playing strength... the programmer has won, outright or jointly, eleven World Micro Chess Computer Championships since 1984!

- ★ ChessBase and PGN files import/export. Excellent printing features. New 200,000+ opening book... and choice of 2D or 3D graphics!

26 REBEL 9 on CD-ROM for MS-DOS (also runs under Windows) £89.95 239 BCF

- ★ Ed Schroder's newest version is packed with features and stronger than ever. 185,000 position opening book.
- ★ Type in an Elo rating and Rebel will play to that strength - find out how good you are, and assess your own progress!

27 FRITZ 5 on 2 CD-ROMs for Windows £89.95 235 BCF

- ★ Multi-media, great features and graphics! Franz Morsch's latest PC program plays sharp, attractive chess, and is particularly recommended for its clever generation of analytical comments and detailed variations, as well as its game and diagram printing facilities.
- ★ The coaching functions for beginners and hobby players enable all available moves to be listed and explained, with threatened pieces and squares colour marked.

28 CHESSBASE 6.0 for Windows £225

- ★ In our view, by far the best DATABASE program for studying games, and now a brilliant state-of-the-art multi-media product with video, soundtrack, massive encyclopaedia of player photos and profiles.
- ★ 260,000 games database with improved search functions for studying openings, endings and tactical themes etc.
- ★ Optional Fritz and HiarcS analysis engines available, and much, much more.

29 CHESSBASE MAGAZINE on CD ROM £19.99 per Issue

- ★ A bi-monthly MULTI-MEDIA chess publication on CD.
- ★ A standalone product with ChessBase LIGHT included on every CD. Your PC requires a CD-ROM drive, Windows 3.1 or Win 95, and a Multimedia video player for full sound and viewing operations. Just check on this and you're ready to go!
- ★ **Special Recommendation:** Issue No.58 with amazing multi-media coverage of Kasparov vs Deep Blue 2, including detailed game analysis plus video interviews looking at all aspects of this remarkable event. Also the HiarcS 6 v Deen Hergott match and 1,000 other games! Great value.

30 BOOKUP for Windows £159

- ★ Highly recommended for studying, preparing and practising both general and specialised openings, as well as building your own repertoire.
- ★ Includes one free "Book on disk" and the Zarkov analysis module for on-screen evaluation of positions and variations, enabling you to check your new ideas and find improvements. Extra "Books on disks" available, including specific Opening Systems from £19.99 per disk. Ring for details.

31 CHESS MENTOR £199.95

- ★ The most popular and comprehensive PC chess course EVER! Useful for beginners though aimed more at the hobby and club player, with multiple lessons which go right up to Master class!
- ★ The truly massive course includes 15 superb, graduated modules covering all aspects of the game from openings, tactics, and positional factors, to long-term strategy and endgames. Can revolutionise anyone's chess understanding and strength - and the PC environment means the user can concentrate on the chess, moving through each lesson and its variations with the greatest of ease.
- ★ The integrated 'hints' and 'counsel' sections available at each move of every single lesson offer different levels of comprehensive advice according to your own requirements - highly recommended!

QUESTIONS - QUERIES - LATEST INFO!

Things can change so rapidly on the SOFTWARE SCENE! What will 1998 bring? CALL us to find out what's new on the market, or if there are UPGRADES (usually half-price) for current owners. Pentium, Pentium Pro, 386/486, DOS, Windows 3.1, Win 95, Hard Disk space, Memory, RAM etc etc - it can become pretty complicated sometimes! So... tell us what PC you have - we'll try to help you get it right first time and supply the product suitable for you and your system.

Bridge Software for PC

32 BLUE CHIP BRIDGE on CD (requires Win 95 & 16MB RAM - Pentium recommended) £59.95

- ★ A strong and highly intelligent program, plays ACOL with a weak (12-14) no trump.
- ★ Suitable for players of all standards. "Plays far better than other software we have seen" (Bridge Plus).
- ★ Excellent on-screen Help displays. Full range of popular conventions, including Jacoby Transfers, Baron, Weak Twos, Trial Bids and Landy. Conventions can be switched on/off independently for each pair.
- ★ Built-in Bidding Tutor which can, on request, give instruction during the auction on most deals.
- ★ Over 4 billion randomly generated deals, which can be weighted to provide practice in specific contracts. Bidding and hand replay. Print-out facility for the deal, bidding and play!

33 PRO BRIDGE 310 £99

★ At home or on the move, this is the perfect personal Bridge opponent.

★ Contains a strong program, second only to the '510' below.

★ Plays ACOL and standard 5-

card majors. Computer shuffles and deals automatically. Large clear display shows your cards and all the bidding, then includes dummy's hand at the appropriate time, plus tricks made, and cumulative score. Will even offer hints!

★ Dimensions: 7 1/2" x 4 1/4" x 1 1/4". Requires 4 x AAA batteries.

34 PRO BRIDGE 510 £249 (including adaptor)

★ An attractive and elegantly designed computer, housing a Bridge playing program of genuine club standard. Plus teaching and training features which will be especially appreciated by less experienced players.

★ Knows all the major systems - ACOL, Standard American 4 and 5-card majors, French 5-card majors and Precision Club. Choose your preferred bidding conventions from the pre-programmed computer options.

★ Plays Rubber and Duplicate (teams of four). Ten skill levels from beginner to advanced. Choice of deal method: randomly shuffled, or one of the 10 million hands in the computer 'library', or key in any deal yourself! Can give hints on bidding or play. Allows take back to rebid hand or to replay cards - perfect for practice and study.

★ Dimensions (closed): 8 3/4" x 8 3/4" x 1 1/4", height (open): 7 1/4". Mains or 6 x AA batteries.

★ NB. A special feature of the PRO BRIDGE 510 and 310 is that, by linking the computers with the 3'6" cable supplied with the 510, two players can be partners (or opponents!) and enjoy all the 510's features whilst each having their own LCD screen. Ideal for a highly enjoyable competitive rubber or two!

**Deduct £20
if purchased
WITH Pro
Bridge 310**

35 PRO BRIDGE PROFESSOR £79

★ Have a professional Bridge tutor at your beck and call - the perfect solution for everyone keen to improve their game.

★ ACOL based bidding. Clear LCD screen demonstrates and teaches all aspects of the game.

★ Supplied with large, illustrated and integrated Bridge Manual. Includes library of 600 carefully selected training hands to help you study bidding and play at three levels of difficulty. Hands can be replayed as often as required, and you can sit at North, South, East or West!

★ Display shows all hands, plus sequence of bids and trick count.

★ Dimensions: 7 1/2" x 4 1/4" x 1 1/4". Requires 4 x AAA batteries.

36 ORION TABLE-TOP DRAUGHTS £49.95 37 GEMINI PORTABLE DRAUGHTS £39.95

- ★ Choice of two press sensory Computers, each with the same 16 level DRAUGHTS program.
- ★ Large LCD shows moves and hints. Take-back function and game memory retention.
- ★ Dimensions: Table top model 11" x 9 1/2". Plug-in portable (closed) 7" x 5". Both require: 4 x AA batteries. Orion only: optional adaptor £9.00.
- ★ Both Computers also incorporate a multi level CHESS program with special help and hints for beginners!

Our prices for Orion, Gemini and Sage (see below) include the magnificent 200 page Encyclopaedia of Draughts by Derek Oldfield - a MUST for enthusiasts and students of this fascinating game.

38 DRAUGHTS and OTHELLO SOFTWARE for PC: SAGE 4000 for Windows £49.95

- ★ The best-featured and easily the strongest Draughts program we have seen. Genuine Championship standard! 256 colour graphics display. Facility to add your own notes and comments. True-type fonts for board and game printing. Endgame database. Analyse complete games move-by-move.
- ★ On the same disk are 10 x 10 and other Draughts versions, plus Flip It (OTHELLO). Terrific value!

39 SAITEK TABLE-TOP BACKGAMMON £89.95

- ★ A strong Backgammon computer in handsome table-top format.
- ★ 30 combinations of strength and aggression available. Can give coaching hints, LCD evaluation of position and score. Plus doubling, take-back, and many other facilities.
- ★ Four Backgammon variations also included: Jacquet, Tric Trac, Moultezim and Plakoto.
- ★ Dimensions: 14" x 10 1/2". Requires 4 x AA batteries.

40 "DOUBLE SIX" PORTABLE BACKGAMMON £69.95

- ★ A tough and resourceful opponent, ready to take you on any time, any place.
- ★ Men are clearly and automatically displayed on colour LCD screen.
- ★ Easy to use 'turbo cursor' movement system.
- ★ Manual or computer-generated dice rolls. Choice of 4 playing styles.
- ★ Hint facility, autoplay, demo program for beginners, problem solving.
- ★ Elegantly designed with user-friendly button symbols.

- ★ Choice of set-up - table or floor.
- ★ Adaptor included - just plug in and play.
- ★ Dimensions: 38" x 21" x 44" (legs 28").

44 MEPHISTO KLACKS: Four challenging games to test your skill, reactions and sense of timing - you can even compete against a friend. They're great gifts for the young and not-so-young alike! Tele, Hit and Disc-o have built in chronographs. All 4 games come with alarm clock facilities and include a long-life battery. Approx. dimensions 4" (sides or diameter as appropriate).

Hit only £9.95. Set of 2 (Hit & Tele) £16.95. Set of 3 (Hit, Tele & Knobel) £23.95. All 4 £29.95.

Tele Klack (see picture on left) - The "numbers elimination" game that demands excellent judgement and perfect timing. Six levels of difficulty.

Disc-o Klack

You'll be sailing very close to the wind with this one! Incorporates two different games "The Windmill" and "Balance". You need a good memory and quick reactions.

Hit Klack

Two more cleverly designed games: "Look out - here they come!" and "Ten Squares". Determination and Dexterity essential.

Knobel Klack

Your numbers up - but not for long! Pressing the correct buttons will keep your score mounting, but it's not easy. Try and break your record, or even the world record! Also contains a code breaking game!

Disc-o, Hit & Knobel, shown mounted on our in-store demonstration units

If there's anything else in which you're interested - do call us... it's quite likely we'll have it in stock. And should you find one of our products genuinely cheaper elsewhere, we'll not just match the price, we'll always beat it!

Bear in mind also:

- ★ We have many second-hand BARGAINS - usually with full guarantee, yet at a fraction of the price when new.
- ★ You may have a computer you'd like to TRADE IN - call us to find out its part-exchange value.
- ★ We have SERVICING facilities for many older chess computer models. Even those beyond repair may have some trade-in value, as they can sometimes be "cannibalised" to provide spare parts for computers belonging to other customers.
- ★ For blind or partially sighted players, computers can be specially adapted - details on request.
- ★ If you're VISITING for the first time, call us for recommended best routes to Wilburton (see below for local map). Parking is free and unrestricted! If you're coming by train, we can arrange to pick you up/take you back to Ely Station.
